REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

It is noted that applicant has invoked §112, 6th paragraph, with the recitations of "a piston-loading means for loading", "a piston-shifting means...for shifting", and "a rotating means for rotating" in claim 1. The prior art fails to teach or fairly suggest applicant's corresponding structure, or any equivalent thereof, for performing the claimed function of rotating the swash such that the pistons shifted by the piston-shifting means are assembled to the swash plate. The closest prior art references are those cited by applicant (U.S. Patent Nos. 6,038,767; 6,453,546; and 5,369,878). In each reference, it is explicitly disclosed that the swash plate is held fixed while the pistons are assembled thereto.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
